

# Ilya Rubnich

31 Bennett Avenue #35 New York, NY 10033  
(347) 882-3858 • irubnich@gmail.com • rubni.ch

**Objective:** To obtain part-time employment or a paid internship (15 – 30 hours) for a front-end or back-end web developer position

## Experience

---

### Waspit

New York, NY

Financial startup providing Visa prepaid cards and social commerce services

#### Junior Web Developer

08/2012 – 09/2013

- Built the marketing website using the Yii framework as a base
  - Maintained the site in collaboration with the marketing department
- Created custom Dashboards that aggregate platform data and make it available to staff for analytics and reporting
- Collaborated with the CTO, the creative director, and out-of-house developers to implement new features and refactor existing ones within the web platform, built on the Zend framework
  - Features include “split the bill” functionality integrated with the prepaid card program and a customer service section powered by Twilio for IVR and osTicket for handling support requests
- Integrated third-party payment processing services via SOAP APIs into the web platform
- Worked with the creative director and the CMO to build 4 extensive and unique marketing campaign websites
  - Integrated with social networking platforms to promote activity and engagement
  - Turned Photoshop designs into functional HTML, CSS, and JavaScript websites
- Designed UI/UX for an Android app and web platform with the design team, from concept to mockups
- Managed technology resources on the company network including the VoIP phone system, all routers and switches, development and production servers, and SQL databases

### Con Edison

New York, NY

Electric, steam, and gas provider for New York City

#### Computer Aide

07/2011 – 09/2011

- Developed intranet applications using ASP.NET and VB.NET
- Worked with engineering staff to create useful reporting tools for in-office engineers and field workers

### NYC Department of Education

New York, NY

Operator of New York City public schools

#### Tech Squad

01/2010 – 02/2012

- Diagnosed and repaired computers in a 6,000-person facility
- Assisted staff with basic computer skills
- Set up, diagnosed, and repaired network components

## Skills & Qualifications

---

- Fluent in HTML, CSS, JavaScript, PHP, and SQL
